

I want to thank IWAGS and all of the exhibitors for their hospitality and kindness. Bringing out your Veterans and your puppies is a real commitment that proves how devoted you all are to this wonderful breed.

It was a thrill to be able to see and have my hands on the products of so many years of dedicated breeding. The chance to see this many mature hounds of such quality is a treat rarely offered. I found these seniors to be very fit on whole and all seemed to be really enjoying their time back in the show ring.

Thank you again for asking my opinion.

Best in Veteran Sweeps #77 Best Opposite 136

When I choose my Best in Veterans Sweeps and Best Opposite from the 6 first place Veterans I tried to gage each individual as to what I would expect of them at their age and then the qualities that rose to the top. I have rarely seen stronger dogs at their age than the ones I placed. Their movement was free and easy and the rears strong enough to support my heavy pressure.

You all should be very proud of all of these animals. What a credit they are to you and your breeding program
