IWAGS 29/10/2017

Judge Ian Sexton

I would like to thank the committee of the Irish Wolfhound Association Of The Garden State, for inviting me to judge at their show in 2017 at The Best Western Inn at Hunts Landing, Matamoras, PA. It was an experience for me from start to finish as it was my first time in the USA and I enjoyed myself very much.

I would especially like to thank Eileen Flanagan, Maureen English, Sam Collier and of course Marc and Linda my excellent Stewards that kept me on the right track and of course all of the exhibitors for entering their dogs. In general there was lots of quality hounds and I was happy with all my major winners, I have now judged the breed in four different countries, including the UK and I think the problems that the breed suffers from are not confined to any one country and are the same throughout.

It is the responsibility of breeders to try and breed the best quality hounds that they can and for judges to recognise the best quality hounds and award them the top honours and between us maybe over time we will make the improvements that the breed needs.

6-9 months males

1st. Lauren Swick & Brett-Ashley Swick's-Barrassy Stormborn Twister.

A 7 month old grey brindle, well grown and substantial throughout, strong head, dark eyes, strong muzzle, strong neck, well laid shoulders and a deep chest, well sprung rib cage carried well back and the correct length of loin. Correct top line with a gentle rise over his loins and he moved true coming and going away, he needs to tighten in front but this should come with strength and maturity, a very promising young dog.

9-12 month males

1st. Thomas & Nancy Smith & Eileen M Flanagan's-Carrickaneena Rooney.

Substantial and well grown throughout, head of the correct proportions, dark eyes, strong neck, well laid shoulders, deep chest, well sprung rib cage, ribs carried well back with a strong loin. Strong rear quarters and low set hocks. He moved soundly coming and going but was a little shy on the day but should improve with age and confidence.

12-15 males

1st. Anne Linden & Raven-Wolf Axelrad's-Mythic's Mac Tire Axe.

12 months old, masculine throughout strong head and muzzle, dark eyes, well boned legs, good coat texture, deep chest, well ribbed back with the correct length of loin. I would have preferred more return of upper arm and better ear carriage but moved soundly with drive but he lacked reach in front when moving around the ring.

2nd. Catherine Kowalski & Eileen M & Eileen B Flanagan's Carrickaneena Ogilvy Mochroi.

Not the substance of the first placed dog, looking very raw and tall at the moment, good head and muzzle, dark eyes, correct ear set, strong neck and a deep chest. Well sprung rib cage, ribs carried well back and a strong loin. Again I would have preferred more return of upper arm and more bend to his stifles, his movement was true but he lacked the reach and drive that comes with the correct angulation in both front and rear quarters, hopefully he will improve with age and maturity.

3rd. Eileen M & Eileen B Flanagan's Carrickaneena Dearthair.

13 months old and he was a little shy today and I would have preferred more substance throughout. Although only young he lacks depth of chest, his rib cage is well-ribbed back and he has the correct length of loin. Forequarters lack angulation and this affected his reach in front when moving around the ring.

Novice Dog

1st. Theresa Duff's- Can. CH Baileysong Turkish De Lite.

A 3 year old male, showing good type being balanced and in proportion throughout, he was well presented and had the correct harsh coat texture. Head of the correct proportions, dark eyes and ears well set and carried correctly, he has a deep chest and the correct spring of rib, ribcage carried well back and the correct length of loin. His movement was sound and true and showed reach and drive in profile.

A 2 ½ year old grey brindle, well grown and substantial throughout, masculine head, dark eyes and correct ears. Strong muzzle of the correct length, deep brisket and well sprung rib cage, topline correct and a strong loin. Well angulated front and rear quarters, although sound and true, his movement was a little unsettled on the day.

3rd. Leanne Patterson & Emma Ross's-Cnoccarne Olog Carrowmoragh.

I would prefer more substance throughout, front and rear quarters nicely angulated, head of the correct proportions, dark eye and the correct ear carriage. Deep chest and a well-sprung ribcage, ribs carried well back and a strong loin. He moved soundly with reach and drive.

He moved steadily being true coming and going and strode out in profile.

Strong neck leading into well laid shoulders and a deep chest, with the correct spring of rib and ribs carried well back, correct underline and length of loin. Topline correct with a gentle rise over his loin and strong well muscled rear quarters, correct coat texture and he moved very soundly being true

coming and going and showing reach and drive when moving around the ring.

Topline correct with a gentle rise over her loin, strong well

angulated rear quarters, correct tail set and her movement was sound and true coming and going and she showed reach and drive in profile, a very promising young bitch and I was pleased to award her **Best Puppy**.
